Fire Fighting Foam™
Aqueous Film Forming Foam #0697

Fire Fighting Foam is a non-corrosive synthetic concentrate that produces a long-lasting and dense foam designed for fighting class A and class B fires, involving non-polar liquids such as gasoline, fuel oil, benzene, mineral spirits and other hydrocarbons. Fire Fighting Foam offers superior water retention while promoting smothering and vapor suppression capabilities. Fire Fighting Foam is compatible with surfactants and tank protector.

DO NOT MIX WITH ALCOHOL OR ANY OTHER ANTI-FREEZE.

AREAS OF USE: HOTELS/MOTELS • OFFICE BUILDINGS
SCHOOLS • INSTITUTIONS • INDUSTRIAL PLANTS • HOMES
HOSPITALS • VEHICLE INTERIORS • FIRE DEPT

APPLICATIONS: NON-POLAR LIQUIDS • MINERAL SPIRITS
GASOLINE FIRES • FUEL OIL FIRES • OUTDOORS

TECHNICAL DATA
FORM: Liquid
ODOR: Mild Detergent Odor
COLOR: Clear/Slight Yellow
STORAGE STABILITY: 1 Year +
COLD STABILITY: 32° F
FLASH POINT: N/A
SOLUBILITY IN WATER: Soluble
SPECIFIC GRAVITY: 1.03
EVAPORATION RATE: N/D
